Customer Reviews

This is a book I purchased for school with no intention of keeping. However, I found this book to be a relief from my other text due to the change in text sizes, the colors and pictures, as well as just the size and feel of the pages. I will be keeping this book for a quick reference guide for the future.

Not only is this book tiny, it's poorly-written and almost entirely lacking any actual information. It's merely a string of photos with unhelpful captions. Few of them even list the work illustrated.

honestly think my professor had a deal with the author or something, because this book was required for my class before it was even published. Returned immediately upon receipt. Worst \$45 I ever spent.

Great publication! Very helpful.
