College Apps is a MUST READ!! There is so much information out there about applying to college and what you should and shouldn't do. Ms. Portnoy breaks it down for us parents into simple easy to follow steps. I wish I had this book for my eldest daughter!! loved it!

I am a Professional College Admission Consultant and I read this book cover to cover in one day. This book is packed with information about the obvious and the not so obvious in this process. It really breaks down the whole thing, including financial aid, and helps families come up with a winning strategy for getting into the school of their choice. Get it!

As a parent of a senior in high school, my son and I found the college search and application process overwhelming! College Apps is here to help! CollegeApps takes the parent and student through the complete college journey...from how college works, to selecting a major, applying to college, tuition, financial aid, and finally...acceptance! There are also chapters with important topics to contemplate... senioritis, hazing, academic integrity...this book has it all! The Glossary of "Key Terms" was also extremely helpful as there were many new college terms my son and I needed to learn! This book has truly been a lifesaver! It is a quick read, easy to understand, and includes helpful tips from current college students, which my son enjoyed reading. The included worksheets were essential... student activity sheet, teacher request for letter of recommendation, financial aid, and MANY more!! highly recommend this book for high school juniors (start the process now), high school seniors, and their parents! CollegeApps has truly simplified the college process and made the experience enjoyable for all. A HUGE "thank you" to Trish Portnoy for an essential college guide book! College Apps: Selecting, Applying to, and Paying for the Right College for You

I recommend this book to anyone who has a child about to go to college. It is a stress reliever, it was a bargain too!
