Customer Reviews

The book was correct but as I started looking through the pages they started falling out so I had to tape them back in. Other then that it was a great rent due to saving about 60.00 from having to purchasing it from the book store.

Although this book was at a very good price, the downloaded version was not compatible with any device that I owned. I even downloaded the kindle app on my phone, computer and tablet, stil would not work. Be careful when purchasing this download, I wasted my money!

Book is a good read. Very easy to understand. Terms and definitions very helpful. Highly recommended to other interested students.
The book has good flow and keeps you engaged throughout each chapter. I bought it for ECON 4560 at OSU & have been reading it on my laptop (love the search feature and auto citation that the kindle reader provides)

These books came just as order and detailed, nice neat and compact. They were right on point, and right on time, inexpensive compared to the school price I would recommend them. Yolanda
