## Customer Reviews

Simple, short book that indirectly (ha) promotes listening. Sometimes when my son isn't listening, I'll casually mention...."remember when the elephant listened to his mom...."? It doesn't always immediately work, but it makes him think about it and sometimes breaks the current escalating situation. Every once in awhile, it stops him & makes him smile, too.

My 2 and 1/2 year old son loves this series of books. I bought all of them because I think the concept is great: teaching kids the right thing to do. My son loves to colorful images and silly things that happen in them. They are short books and do not have too many words on the page, which makes them nice and quick for reading time. I tend to read 3-4 of these each night at bedtime. At this time I can;t say they are 100% effective at behavior changes, but having him listen to the story does allow him to hear what is "right." I assume that it will sink in eventually! I will come back, and edit, once I can determine if they make a difference in my child.

Fun and educational storybook. Our 2 year old enjoys the story flow and the fun pictures. As parents, we enjoy the educational aspect of learning manners, in this case, listening to us/siblings. We are repeat customers of the Hello Genius line because of these features.

Great book and tool. My little one keeps asking for it to be read over and over. Now whenever I tell him to do or not do something and he attempts to reply with the famous "NO" , I simply say Little Elephant and he obeys.

Great book! Now if only I could convince my three-year-old to follow these instructions.
