Toddler Town: Seaside
What things can you see by the sea? This new series of illustrated board books provides an ideal introduction to the seaside for toddlers who are just beginning to discover the world around them. The pages feature die-cut holes for young readers to look through, so that they can see part of what is happening on the next out-and-about scene.

Bought it for my daughter who is a speech pathologist. She loves the visual prompts for working with her preschool students, especially the ones just developing speech.

This is a darling little book, especially for my niece since we attend the beach a lot!

Great book for grandchild a first or second trip to the beach!

Such a cute little book! My beachbaby is going to love it!
