The Black Eyed Kids: Your Haunted Lives, Book 3

Synopsis

There is a knock at the door late at night. You answer it to find two small children standing there. You are suddenly filled with an inexplicable fear. "Let us in", they say. "We need to use the phone". It is at that point that the fear turns to utter dread as you see that these kids have completely black eyes. The Black Eyed Kids is an exploration of this terrifying phenomenon using true stories of encounters with Black Eyed kids (BEK) submitted to the My Haunted Life Too website. G. Michael Vasey examines the evidence and investigates the terrifying BEK phenomenon, coming to some startling and shocking conclusions. Are they demonic soul eaters responsible for the disappearance of some of the 90,000 Americans missing at any point in time? Or, is this just another urban legend - another bogeyman designed to keep you awake at nights? Listen to the book and find out!

Book Information

Audible Audio Edition

Listening Length: 1 hour and 44 minutes

Customer Reviews

G. Michael Vasey is fast becoming a person of considerable interest in the occult/paranormal field of study, and his examination of the BEK phenomenon is a superb example of just exactly why his reputation is well earned. The author has written a really solid book on this particular subject, and it's delightfully (though chillingly) more than a mere collection of firsthand eyewitness accounts of the mysterious beings colloquially dubbed "Black Eyed Kids." For those who've been unfortunate enough to have become totally mesmerized by the empty, apparently soulless gaze of these creepy creatures, it's a deeply frightful experience that no one who lives to tell the tale ever seems to forget. The real problem, of course, is that these stranger than strange strangers with chalky white skin, who may be much more akin to the faerie or demon folk of old, always seem to want nothing more

(initially anyway) than to get IN -- to your house, your car, you name it. And perhaps most perplexing and spooky of all, they absolutely MUST have a clear and present invitation from their intended victim. Yes, it's a real paranormal puzzle for the ages, and in this trim but well written and highly accessible volume, the author does a better than average job of not only supplementing numerous harrowing accounts with these apparent supernatural beings, but even offers up his own interesting ideas about what's really behind this ongoing mystery of the appearance (and often equally sudden disappearance) of troublesome tots (and even older looking folks) with eerie, soul sucking blacked out eye sockets that just seem to suddenly show up at the doorstep of unsuspecting folks all across America.
