## Customer Reviews

The Visual Dictionary of Prehistoric Life talks about everything from the formation of the Earth to the mammals. It talks about everything including dinosaurs, sea reptiles, and mammals. There's only one thing that's negative about this book: I wish there were more facts on the Tyrannosaurus Rex. Infact, I wish that EVERY prehistoric book featured more facts on that dinosaur. Forget the T-Rex. Overall, this book is a GREAT find for teacherseverywhere.
