Fractions Flash Cards (Brighter Child Flash Cards)

Synopsis

Brighter Child® Fractions Flash Cards offer children a fun and easy way to practice their fraction skills. The set features 54 full-color cards with illustrations to help build meaning, as well as help children make comparisons. Each card covers basic fraction facts from 1/1 to 9/9, and a bonus card teaches basic mathematical symbols. A special card is also included and offers creative game ideas designed to reinforce learning. The popular Brighter Child® Flash Cards give children a fun and easy way to practice important skills. Offering 24 titles encompassing preschool to grade 5, each title focuses on an important subject including early concepts, math, phonics, and U.S. History. Fun game ideas and learning suggestions are included to help children build proficiency and confidence. Game cards also allow children to develop thinking, decision-making, turn-taking, and social skills while playing fun games at the same time. Select titles are also available in English-Spanish and Spanish-only versions.

Age Range: 8 - 11 years

Grade Level: 3 - 5

Customer Reviews

I use this product to tutor 5th graders and struggling 6th and 7th graders. Bright colors, clear images

communicate well, and there is nothing improper about including improper fractions in the set! Very pleased. At the price, I'd be pleased if they only lasted one school year, but they look like they have several years worth of quality.

My daughter was struggling with the concept of fractions and being able to have a visual for each fraction helped her pick it up much more quickly.

I only like these cards half the time...okay, bad fraction joke. These are fine cards. Easy to organize with color coding.

The very day I got the product my 6yr old wanted to play with them. She grasped the concept immediately. These cards are amazing!! They absolutely work!!!

These cards are colorful without being distracting. They have helped my daughter to really put a picture with the number, such as $\frac{1}{4}$, seeing one fourth of a pie colored in. The cards themselves are nice quality and I think these will easily last us through multiple children.

Flash card fractions are just like advertised! My kids tolerate them as much as any normal child would...guess using pieces of cake would be more enjoyable for them, although then they'll be my little chunky monkeys.

These are big and easy to read. But they aren't as thick as I would prefer them to be, and they are only coated on one side.

For students who are just beginning to learn fractional parts, these flashcards are great. You can use them with individuals or small groups or you can put them up on a document camera for an entire class.
