Customer Reviews

Really perturbed about the poor quality and deceptive cover of this book. The prominent "100" would suggest there might either be 100 puzzles or 100 dots in puzzles, but there are neither. There are 35 puzzles, most are very simple under 30, with just a handful going over 50. The highest count in the entire book has only 70, then there is one with 66 and just a sprinkling of other ones. My 4 year old was done with this book in no time at all, the dots are very tightly crowded with each other so there's very little challenge in finding numbers and creating the picture. Ugh. Big disappointment.

Though it is a very cute book for a small child, my son is nine and it was too simple and unchallenging. For some reason i thought it was a book for an older child. However if u have a younger child it would b perfect.

very good

Was too easy for 8 year old
