# Scholastic Discover More: Dinosaurs

## Synopsis

Favorite topics in active and interactive print and digital books, specially designed for newly confident readers. Within the last five years, more has been discovered about dinosaurs than ever before. By commissioning brand new digital images and talking to 'in the field' paleontologists, DINOSAURS is not only up-to-date, but stunning to look at. The book is ordered chronologically and gives the best, current information about which dinosaurs lived when, and what each was like. Details of the fossil record encourages budding paleontologists to think about why we know what we know, and make discoveries for themselves. The book ends with an interview with a dinosaur expert, a look at some dino record breakers, and insight into what happened to the dinosaurs. Is it possible that we still live with dinosaurs today?

## Book Information

Lexile Measure: 920L (What's this?)

Series: Scholastic Discover More

Paperback: 80 pages

Publisher: Scholastic Reference; Pap/Psc edition (October 1, 2012)

Language: English

Grade Level: Preschool - 3

## Customer Reviews

My son who received this for his 5th Birthday LOVES this book. It has been through choice for bed time story since he got it 3 weeks ago. There is a lot of information but not too much where he gets bored. Great pictures and a nice index and glossary in the back of the book. Definitely recommend!

Very pleased, in good condition and as described.
