Our two high school boys began using these four months ago for student planners and they love them. The school sells planners for them but they are not organized very well, in our opinion, because there aren't enough rows for all the classes they take and the boxes are too small to write much. Although this planner is geared for teachers, my students list their classes and Room #'s in order down the left side (up to 7) and can then view the whole week of all their classes. There is plenty of room to describe their homework or reminders in larger, legible writing. On the right side,

there is a column of boxes for even more space to list things or elaborate on what they need to. There were a few extra pages they just ripped out which included seating charts. It has enough pages for the whole year and the full size pages and thinness of the planner allow for easy storage in their backpacks. They will never go back to the student planners we've seen. This one is perfect for them and the cover is even plain which my boys appreciate.

I have 5 daughters and my 2 oldest daughters received this book 38 and 36 years ago. The cover was different though. When they had children, I made them a Moses basket for their baby shower and filled it with handmade items from when they were born and if their book was too worn, I ordered them a new one and placed it in with their mittens and rattles and blankets. If you read to your child with feeling behind the sentence you are reading, their imagination along with the colorful pictures will let their desire to learn be a pleasure.

Easy to use and comprehend. Kids would find description, examples and sentence with almost every word. I bought it last year for 1st grade and he is using it again for 2nd.

I like it, it has good definitions with pictures that my 5 years old daughter can easily follow. The colors are able to help my daughter find the right meaning.

We gave these as gifts for graduating kindergarteners. Lovely dictionary, sturdy, appropriate for early elementary.

Said good but was like brand new!! Perfect. Very happy with the book and the price.
