I read this manga at a bookstore one time and I couldn't stop laughing. I had to refrain from cackling like a crazy hyena on helium. It is so funny and this being the first manga in color printing . I can't wait for the next three volumes to come out.

I randomly came across this in a bookstore and couldn't put it down. It's amazing. The "chapters" are very short, so I keep it at my desk at work for when I need a quick mental break. Several coworkers have commented on the cute cover and were delighted with the illustrations when I let them flip through. I can't wait for the next volume.

Super cute story about a little kitty named Chi. This manga is perfect for anyone at any age. Small children as well as adults can enjoy and relate to this book, especially if you own a cat. Unlike many manga, this one is in playful colors rather than the standard black and white.

super cute and fun for all ages

Eight year old loves it, she gave it to her nine year old friend, who also gobbled it up. You get to see the world from an adorable kitten's POV. Kawaii illustrations. Rings true. Younger kids will enjoy and adults love it too. Across ages adorable.

Super cute and great for all ages! We bought this for our daughter for Valentine's day and we know she's going to love it.. Even my wife wants to read it!

Love Chi so much! This series is so cute and just makes me happy to read it. I highly recommend it!

My daughter is 9, just getting into graphic novels and she loves this book! I feel it's age appropriate and holds her attention.
