This book has an interesting story behind it. As VP of Sales Strategy, Jerry Donovan (one of the book's co-authors) engages Marylou Tyler, a sales process improvement expert (and the other co-author) on a project to optimize his company's top-of-funnel sales pipeline. It's no easy task. During the engagement, Jeremy is blown away by Marylou's methodology. Out of all the books he's read, out of all the consultants he's hired, he's seen nothing like what Marylou is able to accomplish in such a short time. Jeremy is so blown away in fact, he pitches Marylou on a book collaboration. He passionately believes the sales world needs a book like this. And, almost two years later, Predictable Prospecting is born. Lumping Predictable Prospecting into all the other B2B sales prospecting books coming out this year would be a mistake. Because this book, written by two seasoned sales veterans, goes beyond inspiration, theory and good tips. It's about IMPLEMENTATION. Action. How to strategically optimize your B2B, top-of-funnel, sales pipeline. In my case, I'm co-owner in two B2B companies. One in the highly competitive retail auto industry where every marketing and sales dollar is tracked and measured. The other, helping local small businesses increase their sales. In both, I have meticulously tracked and optimized our pipeline.
