# How To Etch Glass: A Guide To Personalized Glass Etching

## Synopsis

Learn how to etch glass with step by step guides. Provides glass etching tutorials for 3 different methods with tips to properly create a professional etched glass. In the first section, it will cover all the different methods available with suggestions to help you pick the right style for you. The book will then explain cream etching, engraving, and sandblasting tutorials. Plus, it provides information on how to make your cream etchings stand out and make people notice them the right way. Includes free gifts near the end with patterns and where to access additional videos.

## Customer Reviews

Okay not great you will get a few tips and a look if you are thinking how to do etching. I always want more details and not time spent on trying to sell me something else. Von

The information that this book provided can be found free on the internet without any special searches. Save your money Google It!

Not a great piece of literature for the price. Everything they show is easily found online through forums and youtube.

It was alright

Love it !!!
