Customer Reviews

This maze book tells a story and also includes a great poster. My 5 year old nephew loved it, wouldn't put it down but perhaps he was worried someone would pinch the poster in the back. Skywag is a mischievous little robot who gets lost in space - each maze takes journies into places like the forest of the nodes and the vapour regions. A centre fold for each maze takes the story along with the end result of the maze, sometimes a pop up monster like the evil giant robot Vogor. Any child who likes robots will love it, with bonus of clever maze pictures to keep adults interested.

I bought this book knowing it was "used". It arrived in fairly good shape but the large wall poster was not included as advertised. I did not lodge a complaint because the book was still a bargain.
