Chasing Rainbows (Dr. Seuss/Cat In The Hat) (3-D Pictureback)

Synopsis

Sally and Nick want to paint rainbows, but they don't know what colors to use, or what order to put the colors. And where do rainbows come from, anyway? The Cat in the Hat is not quite sure himself, but he knows someone who will knowâ "King Kaleidoscope, ruler of Colorgalore! So it's off to visit the King in this funny, fact-packed book based on an episode of the PBS Kids show The Cat in the Hat Knows a Lot About That! featuring 3-D artwork on every pageâ "and a pair of 3-D glasses!

Books > Science, Nature & How It Works

Age Range: 3 - 7 years

Grade Level: Preschool - 2

Customer Reviews

My daughter and I love the Cat in the Hat Knows a Lot About That learning library. We have about 10 books in the series so far, and we have loved all of them. I bought this book for her as an end-of-summer-vacation treat, and though it isn't bad, it was not like the others in the series. First off, it was paperback. Most of the others in the series are hard-bound, and I was expecting the same format. Bit disappointed. Secondly, the 3-D effects are just OK. Nothing really pops out of the page, but it was a nice little twist to the story which my daughter seemed to like. Lastly, unlike the other books in the series, the story was rather short (just 7 double-page spreads). \$5 seemed like a bargain at the time, but I guess you get what you pay for.

Just what you expect from this cat in the hat series. Much as I like the 3D effect. I wish they would

stop doing itin books unless they can figure a way to attach the glasses and make them at least as durable as the book.They are the reason for the 4 stars instead of 5. The writing and illustrations are superb.

This item wad a gift so I haven't seen it myself but was told that the child lives it and turns on every night.

My 7 year old nephew loved it! Goes well with the Uncle Milton Rainbow Maker

Great little book for my daughter and the 3-D glasses add charm to the gift!

For my great nephew. He loves it.

I bought this book to read to my clasa, big mistake. The 3D glasses must be worn to view the pictures or else they are super blurry and almost give you a headache.

This was a Literacy Buddy book, my book-buddy sent me beautiful rainbow pictures along with her thanks-you notre.
