Synopsis

SCIENCE UNDERSTOOD is a pamphlet which details the discussion of a meeting conducted in Berkeley, California by Mr. Herbert W. Eustace and published in 1936. "Matter held as shadow is the idea of God, but matter held as substance is a belief and error"; as well as individualism, birth, and translating matter ("the beast" of Revelation) into Mind are some of the points brought out in this unfoldment.

Customer Reviews

This excellent book has inspired me more than ever, to go into "my prayer closet" and pray soulfully. Since I am a new student of Christian Science, I am reading several books about Christian Science and this book is really filling in the gaps. I read this book once and am also referring to it again and again for more understanding. My favorite thing about this book is that these are actual notes from a Christian Science meeting held on August 23, 1936 in Berkeley, CA. Highly recommend this wonderful book!
