Customer Reviews

Clearly the author has researched the subject of SEO in depth. This book represents a wealth of information made easily accessible to anyone. Beyond facts and figures, the author gives an

insightful, straightforward blueprint for long-lasting SEO of your site without having to pay 'experts' long green to continually try to game the system.I have been developing websites for diverse clients for over two decades and never got into SEO because I thought it was too complex and a fast moving target. Not so! The basics of SEO are easily understandable and accessible if you just understand the idea behind them.If you just get one book about how to get your site to rank high in the search engines, this is the book to get. It's my new SEO bible.

I don't know much about SEO, but I know a little more now I've read this book. I found it easy to understand even with my poor knowledge of the subject. I will be dipping back into the pages to learn more. All in all I found it a useful little book.I was provided with a complimentary copy of this book, through Reading Deals, so I could give an honest review.

SEO 2016 is an interesting and well researched book on search engine optimization, it was quite easy to understand with insightful information.I was provided with a complimentary copy of this book so I could give an honest review.
