Customer Reviews

The book didn't come sealed like it should have been if it was "New". However, that isn't the real problemâ |. the real problem is that it didn't come with an access code, but that wasn't indicated either so I figured that it did considering that it was "new".

Just the book we needed for a college course but quite a bit less expensive!

This book is very good for learning keyboarding with the cengage online program. However, the text is too small and it is hard to decipher commas from periods. A digital version would be better.
