## **Customer Reviews**

When I think of beautiful girls in fantasy art, Jasmine Becket-Griffith is one of the first names that comes to my mind. She has brought her ethereal girls to a coloring book in an outstanding fashion. There are 46 pages of coloring art filled with 55 different images. There are 43 full page designs and three pages which include 4 each smaller designs. It is interesting to get the smaller ones and I appreciate that by doing the publishing this way, I get more to color. The artist mentions that it was difficult to choose which artwork to put in the book, as she has so much to choose from. I think she did an excellent job and my response is â  come out with more coloring books! That should solve the dilemma!The designs are on the right hand side of the book. On the sheet opposite (which is the backside of the previous design), the artist ha provided the name of the artwork and when it was created and for what purpose. She then gives us some background information as to how and why

she created the artwork the way that she did. I think this is fantastic. It really gives a new layer of enjoyment to the process of coloring. I'm torn about the actual coloring. Her artwork is so fantastic, I am tempted to mimic it (though mine would be a pale and less than stellar shadow.) On the other hand, it is fantasy and now it can become my fantasy if I decide to color it my way. Knowing my tendencies, I am sure to color it my way in the end. This coloring book is printed with designs on one side of the non-perforated page. There is wording (as discussed above) on the back of the page. The paper is a nice heavyweight cream and the book is a standard coloring book size (about the size of a standard sheet of paper).
