Customer Reviews

The English _Moo, Baa, La-la-la_ was the first Sandra Boynton book I ever saw, and I instantly fell in love. I bought it long before I had anyone to whom to read it, and quickly developed the ability to recite it from memory (to sell people on a new favorite author). When my little nephew was born, I began reading to him from every book I had that he might appreciate. This is what I do with all tiny children, but in his case EVERY child-related thing in his home was electronic, and I was concerned for his development. I began by reading to him the lone Spanish-language board book I had at the time, _Recién Nacido_ (which I also highly recommend). The first time I read this book to him, in English, he was seated on my lap and facing the book, but ... the moment I let out a good loud "MOO," he nearly gave himself whiplash trying to see where that strange noise had come from! The animal noises fascinated him to the point that this became the one book he wouldn't explore alone; he just turned it over and over, apparently seeking the button to push for the sound effects. Despite the puzzlement, this quickly became one of a group of favorites he would pull out of the basket during every visit. When I found the Spanish translation, our nephew was out of the country, with an indefinite return date. I bought it anyway, waiting for the chance to show him. When he returned,

age 2 1/2, after nearly a year away, he scarcely recognized us and was very upset. I went home, got the Spanish and English of this book, and went over to see if we could get re-acquainted this way. He immediately sat down to look and giggled now at the animals themselves, which he recognized after a year on the farm. "Â¡Vaca!" "Â¡Caballo!"
