Can You Find It Outside?: Search And Discover For Young Art Lovers

Synopsis

Based on the best-selling series, *Can You Find It?*, this edition focuses on art set outside, providing a fun way for young readers to learn about classic art by bringing the museum to them. *Can You Find It Outside?* makes discovering art fun! After reading this book, young readers will be saying, "I spy great art!" Here's a seek-and-find book that invites youngsters to look at art in a special way: very closely! Whether it's a garden by Vincent van Gogh, a boat race by Thomas Eakins, or a peaceable kingdom by Edward Hicks, in this book each of the thirteen paintings, reproduced in full color, invites young children to explore works of art depicting a variety of outdoor scenes. Written in simple rhyme with major works from The Metropolitan Museum of Art in New York City, this book asks children to take a close, closer and closest look at classic fine art at an early age.

Customer Reviews

I gave this book to my 2 1/2-year-old granddaughter for Christmas and it was an immediate hit. She asked to have it read to her right away and had great fun listening to the rhyme on each page and finding the answer to the rhyme in the artwork. The mix of paintings gives her lots of new images to look at and think about, very different from most of the pictures in her other books. The masterpieces pictured are definitely mind expanding while the rhymes are fun and their focus fun to find in the pictures.

We purchased this product for our three-year old grandson. And what a find it turned out to be! He went through the book with Grandma, finding the items I named from the text and then also finding items I noticed and named on my own from the picture. Then he immediately took the book to Grandpa to repeat the process. All three of us loved seeing the art work and watching for details. And the pictures have vivid enough colors to be easy on the eye (in contrast to other reviews of the "Can You Find It Inside" companion). As our little guy grows, we'll use the concepts for helping him learn to add "hidden" details to his own art.

An excellent book for teaching children that there is more to see in the world and starting them appreciating real art. Trips to the museum could follow a reading of this book. Also a good book to read with the younger child to have a closer parental relationship.
