Egypt (Insiders)

Synopsis

INSIDERS -- a visually groundbreaking, state-of-the-art nonfiction series that outshines Eyewitness and Discoveries. This stunning new series offers an inside look into twelve riveting subjects, beginning with Dinosaurs, Egypt, Oceans, and Space. Expertly written, each book will feature an arresting design, complete with dynamic, multi-layered CGI and 3-D model imagery that is complemented by fascinating, up-to-date information presented in a user-friendly format. Get a glimpse inside the chambers of King Tut's tomb, examine each layer of mummification, and see the inner workings of pyramid-building. Egypt covers every facet of ancient Egyptian civilization!

Customer Reviews

Compelling artwork! Visually appealing, and very informative! I bought several books for our homeschool unit on on Ancient Egypt. This one is, by far, our favorite. Really well done; I highly recommend it.

This is one of the best books I've seen for kids about Egypt. The drawings and photos are superb. Highly recommended.

These are incredible I want one for every subject possible they are informative, vivid and easy to follow I love that they go into so much detail showing locations of the kingdoms and dates of discoveries in an easy to follow format. these are great books! I don't have children I am just an archeology buff and these help me breakdown some of the more complicated books I have purchased on ancient Egypt.

We have bought just about every book in this set. My kids absolutely love them and bring them with us everywhere. there's always one in the car, one in the church bag, you name it. the back inside cover has a picture listing of the books in this series and my boys are always quick to point out which ones we don't have yet.... so we go to to buy them!

I have a 5 yr old son who absolutely loves these books! We bought his first one at a museum and after he looked at it and discovered the pictures of other books, he now has a request list of all the other insider books so far. So far we have the egypt, Flight, and weather books. Look forward to buying more of these very cool and educational books.

As I say in my 's Home page I'm a history buff. Egypt's history, obviously, has fascinated me since I was a kid. Periodically an "Egyptian fever" overtakes me and I start reading most compulsively about pyramids, pharaohs, sphinxes, hieroglyphs and dynasties. Well it seems I've catch it again! Joyce Tyldesly (1960) archaeologist, Egyptologist, lecturer and author is evidently in love with this ancient culture. She has written numerous books about Egyptian queens, pharaohs, women, pyramids, Egyptian justice, etc. This is an excellent, very readable and detailed history of how the mysterious Egypt was rediscovered by westerners. The author divides the book in four parts: the explorers, the collectors, the archaeologists and the scientists. Ms. Tyldesly presents the evolution of the rediscovery and describes in depth each character with grace and flare. This book is treasure for Egyptian history fans do not miss it! My 9 year old son just loves these books. They are of the highest quality, great graphics and easy to read. He has most of the collection because he keeps adding them to his birthday/Christmas wish lists!

Very complete infography about Egypt, amazing illustrations from 3D models and a well designed

structure make this book a must-have for every kid, even adult interested in Egypt.
