# TouchThinkLearn: Baby Animals

## Synopsis

Featuring spreads with raised, shaped objects that fit into scooped cutouts on their opposite page, these new TouchThinkLearn books offer the youngest learners an opportunity to explore in a hands-on, multisensory way. Seeing the image, tracing its shape, saying its name—these modes of perception combine to stimulate understanding of essential concepts. Discover a polar bear by tracing its raised outline on one side, and the concave shape of its cozy den on the other! Related words on each spread offer a springboard for further conversation to encourage the language skills crucial to later successful learning. In a format unlike any other, these groundbreaking books translate abstract thought into tangible knowledge.

## Book Information

Age Range: Baby - 2 years

Grade Level: Preschool and up

## Customer Reviews

I bought this when my baby was 5 month old. Now she's 7 month and still loving this book! She has just started learning how to flip pages. These are thick sturdy pages. Very easy for her to grab. She also love touching the emboss elements on the pages. She keeps going back and forth between pages many times.

Great book

excellent
