What a treasure trove of short stories for kids, tweens and teens to explore cultural education in a fun, memorable way. Adding a few children's books on Kindle are a great way to make sure you have stories around for free moments or focused exploration, and this is a great addition to your

family's library of myths and short stories. The diversity is rich and varied, allowing for both cultural and historical education. The book's organization is fabulous. Each starts with a paragraph describing the story's origin, history and significance. Then the story unfolds in clear, engaging writing--storytelling at its best. These work great for read alouds to young children 4 to 8 or independent reading for children up to 9-12. Then each story wraps up with a one paragraph moral to bring home the point of the allegory, myth or tale. This means they can prompt lots of family discussion. Or, if siblings are fighting, have them read "The Judge Monkey" to each other to talk about cooperation! This book holds lots of wonderful storytelling for young readers, families, teachers and homeschoolers alike.

At first I was a bit apprehensive reading this since I am not a child but as I got deeper into the each story, I realized that these stories are not meant for children only but for adults as well. I loved this book and recommends it for any age.

My 9 year old daughter and I have been enjoying these stories a lot. This is her first time hearing Indian folk tales so she is extremely attentive when I read them to her. I have only heard a couple of Indian folk tales from friends so it is nice to have stories to read that are new to me as well. Since the book includes 50 stories I have no trouble finding a tale with a moral that I really want her to listen to and remember (my favorites are team work and sharing). What I love most about this book is that the moral of the story is clearly defined at the end of each folk tale. That is very helpful to a parent who wants their child to read the book without aid but still understand the moral.

â ^Children's Book: "50 Indian Moral Stories for Children" â " Free Parenting Tips! (Kids Books Ages 9-12) Short Stories Collections and bedtime story books for kids by all ages, folklore myths and legendsâ ™ is a beautifully written collection of 50 moral stories for kids which reminds me a great deal of Aesop's Fables. Each story has a moral at the end, and they are very appropriate to read to children at bedtime. It is wonderful to read tales from another country and learn about a culture which is different to ours, although the stories show that we are more alike as a people than different. The color map of India at the beginning of the book is a great idea because you can look up where a story came from as you read it. I really enjoyed this collection - it is a great reference book of curated tales from ancient times.

Sacred Stories book is kind of a story that you can get a moral values from one generation to

another generation to the next next generation. This is how our life cycle is we can't skip of where we are came from. Although I'm old but I enjoyed reading this book together with my little sister. I'm sure your children gonna love the story.. Also it is fit to the bedtime story with your child.. GREAT book and GREAT author.. Highly recommended this book.!!

This compilation is really great for children during bed time and it tells them about their folk and history.
