Customer Reviews

I don't know when I have had more fun with a coloring book. The reason I gave it 4 stars rather than 5 was because of the way in which the women were drawn in the book - way too thin, with overly elongated necks, arms, hands & legs. I guess they were supposed to represent fashion models, but even high fashion models aren't that distorted. I felt that gave a poor image of how women should look. However, I greatly enjoyed coloring the fashions, there are usually 3 or 4 fashions on the non-text pages, although a few of the pages just featured small drawings of clothing, purses or shoes; the majority were models wearing garments. I also liked the fact most of them indicated what colors the clothes were to be colored--so it was interesting to see how they turned out. The book is a generous size - I have never come across another coloring book with this many pages--there are approximately 190 pages in the book. Some of it is text--giving fashion tips. Personally, I had no interest in that--but it's there for those who want it. I purchased the coloring book through an eBay buyer--and certainly got my money's worth.

This is a really old book, but if you enjoy fashions, it may serve its purpose. The glue on the binding was very dry, and the cover fell off after a few days. While the fashions are from the 80's, they are well drawn, and fun to color. There is a great deal of information regarding fashion, colors, and the proper type of garments for all figure types. It is a large book, and very informative. (I have purchased this book twice from different sellers. The second purchase at a later date, was in pristine condition. Buying used, good, can be hit or miss, I have been very fortunate with buying used books)

I bought this "used" copy for pennies; the shipping cost more than the book. I look forward to coloring when my school work is done. It's my reward after a hard day at school. As suggested in the book, I bought a good German set of colored pencils for the pictures. It does the trick!

Somewhat annoying that most of the pictures have the suggested color with a line pointing to each section of item of clothing. Not only is this sending a message not to be creative but all the writing distracts from the picture. However, there are few adult fashion coloring books available (even dated ones like this).
