Customer Reviews

The story is very cute and I love the format of the book. It is not the thin/cheap paper that rips easily, which is important with young kids. I appreciate that the cover material and pages are more sturdy than the typical paperback book. Definitely recommend!

My three year-old LOVES Peppa Pig, and Muddy Puddles is one of her favorite Peppa episode. I'm so glad I bought this book for her. She absolutely loves it! The storyline is simple but fun. The words don't rhyme but they do have a good cadence to them. The pictures are awesome (her favorite part) and the last page is the best. It shows Peppa and all the show's characters jumping in a muddy puddle. We had to look up the character names on Wikipedia and now we name each one as we

read: "Where's Rebecca Rabbit?", etc. It's a great book and I'd buy this one again in a heartbeat.

Whoever made this book did a fantastic job. The overall product was designed great with bright pictures and a cute story on a well made book. The sleeve actually has a big coloring picture kids can color on.

Peppa Pig loves muddy puddles. Everybody LOVES muddy puddles. And they probably will all love this book too. It is raining at Peppa's house. But that's a cause for excitement, because rain brings muddy puddles! Daddy Pig is the world champion puddle jumper, and his daughter Peppa is following in his footsteps with her love of jumping in puddles. But what is this? The next morning they wake up to find no muddy puddles at all! Instead the rain has caused flooding and Granny & Grandpa Pig must use their boat to get from house to house. This book is sort of the Peppa Pig muddy puddle version of "if life gives you lemons, make lemonade." If life gives you a flood, instead of muddy puddles, don't be sad, just go boating! It's always an adventure with Peppa. Cute book, great story; any Peppa fan will love this!

Purchased this book as well as "The Biggest Muddy Puddle in the World Picture Book" (Neville Astley) and was upset to learn that this book was the same as the aforementioned, but with a different title and font. And they were gifts to the same toddler. What a waste of money. Should have made us aware of this.

My 3-year-old loves this series (even though I can't stand it). She walks around holding the book and I don't have to worry about her destroying it because the pages are fairly sturdy and it is cheap to replace. Encourages reading.

My kids and I love Peppa Pig, so it's no surprise we love this book too. It's comical as everything is with Peppa Pig. I also love the parrot in it, as it's so fun acting out the big Squawk that the parrot makes! It's a cute story and I've read it over and over to my girls and they never get tired of it. We love Peppa!

I got this to hand out as a party favor at my daughter's Peppa Pig 2nd birthday, and I am thrilled with the purchase. The story is great, as are the illustrations, and I know my daughter and our guests will love it. The material is very sturdy as well, so I think it will hold up nicely through the normal toddler

wear and tear. Seeing the product, I would pay full price for it if I had to do it all over again; I actually got it on sale, and I couldn't be happier with the value.
