I love coloring, although I am late getting on board with the trend. I didn't think it would be so enjoyable, I have always colored with my kids (crayons, my little pony books), but the adult coloring books are so much better. They are designed to help you relax, and they really do take my mind off of everything, just for a while. I use colored pencils, nothing fancy. The pages in this book are all yoga stuff, so I share with my friend who is yoga crazy. This is a beautiful book, and the favorite one for her. I prefer the 'unleash the animal' from the same company. Just personal preference, nothing more. 68 pages, pages are 11" x 8.5". The images are printed on one side, no perforations so they are a little harder to tear out. I received this book free in exchange for my honest review, and it's very ornate. Beautifully drawn images.

I purchased this book for myself, I color for relaxation and practice multiple types of art therapy. This is a nice book, the images each have their own page so you don't have to choose either/or if you are wanting to hang up a piece when you are done with it. There are a nice blend of simple and more intricate detailed pictures. I was drawn to the fact that many of the women do not have faces. It's a nice alteration of the mandala designs that I often do.

This has some unique meditation and yoga coloring pages. They are very nice, I don't like the "people" ones as much as the mandalas, ohms, flowers and peace signs but they are nicely drawn. There are a lot of fun details to color. I like to use a combination of mediums when I color so I can get the best of all worlds: markers, gel pens, colored pencils and a water brush with water colors or marker ink to get some ink washes. I just like to experiment and let my creativity flow which truly does makes it peaceful and fun and the way I like to unwind in the evenings. I have another book by this artist and I'm very impressed by their drawings. I received this coloring book free for review purposes. Review is my honest opinion.

Adult Coloring Books Group aka Mother Dearest Coloring Books won the award for Best Seller in this rather new line of books. The concept behind coloring books â “ one we have observed forever in childrenâ™s quieting behavior when they are involved in coloring in their coloring books â “ is to focus attention on coloring spaces, being creative in color choices and taking care to stay within the lines of the black and white drawings presented as the canvas for individual creativity. Starting as a childrenâ™s outlet, adults are assuming the territory. This has become very popular as a substitute for Xanax, meditation, entertainment drugs that are more problematic treatments for relieving stress.

Simple idea, but one that has really captured the attention of adults in need of a quiet outlet to close the door on stress and the chaos of living. It is fun, offers a sense of accomplishment, and in the end produces art worthy of viewing! MOTHER DEAREST COLORING BOOKS (with Mindi as their spokesperson) has selected beautiful images promoting mindfulness, wellness, and inner harmony - Yoga and Hindu inspired drawings with mandalas, intricate animals, flowers and plants, insects, and of course the stunning abstract designs - each drawn with sophistication and offering enough variation to keep the colorer attentive for hours. But more than that, sitting and coloring these majestically beautiful images will place you in a state of Zen - a far more healthy (and fun) way to reduce stress than addictive medications. There are several of these books that are available and because the publisher sent five different coloring books for this reader's impression and review, we'll cover them all. Highly recommended. Grady Harp, May 16

As someone who is into the new? craze of coloring books for adults I, like so many others, love to 'collect' coloring books. I of course use them but i want to get some before they go away. I've had to become very cautious of getting books online since the few I've purchased have been very low quality but i liked the other one i purchased by Trendi Mindi so I figured it was worth the risk and I was right! I couldn't be happier with this book! I love the quality of the paper and designs. I can't wait to start working in this book! I have included some of my favorite pages from this book. I highly recommend this book to anyone who likes to color! There is bound to be something in there you like! I'm extremely pleased! I love her books. I received this free or discounted for testing and reviewing the product. I am under no obligation to provide a positive review and receive no incentives or rewards for doing so. My reviews are my own. I work hard to write insightful and truthful reviews for each item. This helps me to be a better reviewer. While it is true that many items are received at discounted rates or complimentary, my reviews are completely honest and unbiased.
