I bought this book to help my cousin who has lupus. She is 34 yrs old and i really wanted to help her. This book made me understand what is lupus exactly and gave me some tips to deal with it which i will talk it out with my cousin because i really need to support her. There is noticeable effort in this book

I saw this book whilst working, or at least I was supposed to be working, and saw this book. I watch a lot of "House m.d." on t.v. and I hear foreman always arguing against Lupus. I got this book so that I could learn what it was. It's a good read.

Unfortunately this book is not what I was looking for. It only cost \$.99 and I am so glad I didn't waste \$.99 on it. Lupus is such a disease that literally sucks the life out of you. Doctors, family members and friends, while they feel bad for you, they don't understand the hell on earth you go through. Wish this book could've been more helpful.
