Amsterdam From Above

Synopsis

Over a period of one year, photographer Hans Brons captured practically every aspect of Amsterdam from the air - the medieval city centre and the 17th century canals to the recent developments on both the edge of the city and along the river IJ. The 131 full page colour photographs collected here portray not only a familiar and unique city, but also a city in a period of large scale transformation.

Customer Reviews

I was very disappointed in this purchase. Not only was the book NOT worth \$75, it was not in good condition, even for a "used" book. Many of the photos had been creased and the corners of the hard cover were dented.
