Customer Reviews

Jordan Adler has written a book which should be read for ANY and ALL Network Marketers! It should even be read by those even thinking of getting into the business so they will know what is expected of them. Make sure your downline has this book as well. Honestly, it started off a bit slow with no meat and potato information partway through aside from the occasional "gem" inserted into the paragraphs. But once you get into the meat of the book, you will end up highlighting a good portion of the book and seem to forget about the first half of it. No doubt this book will go down as one of the best ever written on Network Marketing!

This is an amazing book. If you are interested in the part-time, low stress career that network marketing can give you, read this book. If you are tired of the rat race and trading time for money, this book gives you the way out. It does not address how to find a company that has the culture and the products to ensure life long residual income, but if you read this book, you'll be motivated to do

your own research to find a company that you love. I recommend this book to anyone thinking about this business model. Check out Adler's web site, too.

Jonathan Adler's "Beach Money" should be good starting point for anyone considering direct, part-time product marketing as the great opportunity it is to create that stream of expanded income. Mr. Adler has a unique way to demonstrating that the real potential lies in creating expanding distribution as opposed to sales dollars. . . direct selling versus network marketing. It holds the key to the rationale for creating residual income versus commissions. And it really demands more than one read to extract all that it has to give.

Good Book!! I even wrote to the author. This book is for direct marketing individuals that need a push and this book will give you that. There are tons of helpful tips and tricks to work you direct sales business right. This book motivated me with my Yunique business and I thank this book for all my success!

Wow! This is the first network marketing book that I highlighted in a long time. It provided a fresh perspective on network marketing that I have never considered. I read this book at a time in my life when I was involved with my third mlm company, unsure whether I would continue my career in the business. It inspired me to know that the business is meant for those who don't quit and give up despite practical circumstances and that the personal touch will always be mandatory to build a successful business. Maybe you have read that somewhere else but it came at the perfect time for me. I also recommend the Beach Money journal to write down your vision.

Jordan wrote this amazing book, I believe, to help others achieve their ultimate goals and dreams through network marketing. It was clear, concise and inspirational. Reading about Jordan's journey gave me a new outlook on network marketing... giving to give not giving to get. This is beautiful approach to networking with people because you are speaking from your heart all of the unlimited, positive scenerios, in particular, from SendOutCards. If you have ever considered network marketing as a possible avenue for generating income especially with so many changes in the job market today, read this book! You will find valuable information no matter what type of NWM (Network Marketing) you are looking into. This is a quick read, because you don't want to put the book down. I am going to read it again.

This book is AWESOME! If you are on the fence about getting started in a network marketing business, READ THIS BOOK! You will jump at the opportunity after you learn how simple it is to become rich in the business.

I really loved this book! I found it an inspiring, easy read. I just started a business in network marketing, and while I have heard some of these general ideas before, I really liked the way he put them into action in the book. One of the ideas I have implemented is hanging a poster with "100 business presentations" over my desk to stay focused on my goals. So far it has helped me in staying focused!
