Grade Level: Kindergarten and up

## Customer Reviews

Ok, I confess!!! I am 56 years old and I bought several of these for me. The highlight magazine is still my go-to magazine at the doctor and dentist office, even after 5 decades. Found some books for my grandson and saw this as a suggestion by . Bought this and a few more for my husband and I and we solve them together. We make a great team. At our age, they are awesome brain activities.

The puzzles vary enough in difficulty that some were super easy and some my son won't be able to attempt for years. Many of the puzzles require geographical knowledge that you wouldn't expect until at least 3rd grade while the mazes and hidden pictures are easy enough for my 6 year old. It is a huge book and has answers in the back.

Excellent for children as it teaches them both words and perseverance.

Good activities, great pictures and colors. The kids loved it!

Got it for a 3 year old on an airplane
