The Super Adjuster's Guide To Motorcycles

Synopsis

In the world of auto claims adjusting, many desk adjusters are confronted with heavy workloads and a high volume of calls. Often material damage training regarding vehicles and motorcycles are left to the specialists thus a desk adjuster may not have familiarity with part terminology. This short visual guide to basic motorcycle parts is a quick immersion into the most common terminology an adjuster may encounter when discussing a claim. This guide is not meant to be exhaustive and detailed but a simple overview of part locations to provide some familiarity to the parts of a motorcycle.
