Customer Reviews

This is one tremendous find! The Gershwins wrote some very memorable tunes, and the piano arrangements (also includes vocals and guitar chords) are lush and exquisite! I have been looking for a book of Gershwin for piano awhile now and this is PERFECT! Lots of fun and pleasure, though it is not "EASY PIANO". Moderate ability is required, but you can always fake it by playing the chords and melody line. I love it!

This volume contains a large selection of Gershwin classics ranging from standards such as "Embraceable You" and show tunes like "I Got Rhythm" to pieces originally composed for orchestra including "An American In Paris" and "Rhapsody in Blue." They are presented at a level that is relatively easy for an intermediate player to master. If anything I would have preferred arrangements that were a bit more challenging and complex. Nevertheless, there are many gems here that are a steal at this price.

Love the album....the paper is superior as well as print. However, the binding makes it so difficult to flip pages and stalls the playing. I hope they improve on the binding to make it easier to flip pages.

This is Gershwin's genius in one wonderful volume but I love Gershwin's music I have two song books. Makes you want to dance around the house singing, "I've got music..." Oh yeah, I've got Gershwin!

Book arrived in perfect condition. The music is intermediate level and has been an absolute pleasure to play. Every song in the collection I can immediately call up a memory of a movie I've watched that it was in.

Has everything you need. Many Gershwin essential songs, chords, melodies, lyrics, and obviously piano. One of the best Gershwin music books. Buy it.

This is my second copy; I gave the first one away. Great collection. I would recommend this collection to anyone.

I have given two copies as gifts. This is a wonderful collection
