# Hippocrene Children's Illustrated Italian Dictionary: English-Italian/Italian-English (Hippocrene Children's Illustrated Dictionaries)

## **Synopsis**

Intended for children in the age-group of 5 to 10 years, this title offers children a directory of a foreign language. It contains 500 illustrated entries and allows a child to make the connection between a picture and the word. It includes words that are for the people, animals, colors, numbers, and objects that children encounter every day.

Grade Level: 1 - 5

## **Customer Reviews**

This book gives you hundreds of words (nouns & verbs) in alphabetical order of the English word with its Italian translation; then the Italian words are alphabetically listed in the index. The images in this book are beautiful, vintage images for each Italian word with its very understandable phonetic pronunciation as well. With today's technology one could now type the Italian word into one of several translation programs and have a perfect Italian pronunciation for the words in this book. I love this book and my 3-year old cannot put it down.

This book is better than the average dictionary since it has beautiful illustrations for each entry! The English and Italian words are listed below each colorful picture, and has pronunciation given for all Italian words. However, it does require one to look alphabetically for words; I prefer looking at

groups of words for foreign language references. This dictionary is very good for reading level children and adults who are visual learners.

This is a really nicely illustrated book and kept my daughter very interested so that we can continue to teach her native language

A gift for my daughter, who is teaching herself Italian. Grazie

This is oriented to English reader as the listings are in English alphabetical order. I had purchased for Italian children and it's not very useful. Also the illustrations are not very nice.
