Customer Reviews

I was pleasantly surprised to this audio CD and the book. Good mixture of plain words and songs. It has songs that are not too old and fun. It also has some English songs, along with Korean songs. I think it makes kids to be more comfortable to listen to this CD, especially in the beginning. Only cons I found is although the female Korean native speaker speaks with standard accents (Pyo-jun-mal), I can tell from time to time that she is not from Seoul. Then again, It's just me and I know I have sensitive ears. However, to learn Korean, her accent is just fine, and most people cannot even tell. Overall, I think it is well put together and I would recommend it to kids who want more exposure to Korean language. Anyway, I only tried vol.1 and I wish I can find a volume 2, but it seems that Vol. 2 is out of print.
