Paul Hollywood's Bread

Synopsis

Paul Hollywood's new book is all about bread - how to make it and how to use it. Not only does Paul teach you exactly how to make a variety of breads, but for each one there is a spin-off recipe that shows you how to make a fantastic meal of it. The book has six chapters, each with five bread recipes - plus the spin-off recipes for main courses. Not only are Paul's recipes delicious but they are also foolproof, with comprehensive step-by-step photographs. Try your hand at a basic white bloomer, which can be come a savory picnic loaf; stilton and bacon rolls, which are excellent served with celery soup; fluffy crumpets, which become the base for eggs Benedict; spinach doss, which is a natural pairing with chickpea masala; ciabatta, which the Italians have traditionally used as a base for tomatoey panzanella; pizza bases, which can become home-made fig, Parma ham and Gorgonzola pizzas; or white chocolate and raspberry bread, which makes for the best bread pudding you've ever tasted. I have been baking most of the bread that my family eats for more than 50 years. Even though I bake loaves just one or two at a time now that I live alone instead of the half-dozen at a go three times a week that I once produced, baking my own bread is something I still enjoy, it is still the single easiest thing that I know of to do to save a big bundle of money on your grocery bill and I'm still always on the look-out for new recipes and new ways of doing things. Back in early May I acquired a little Kindle sampler for the not-yet-available-in-the-US cookbook companion to the

British TV show, "Food, Glorious Food." As luck would have it, even though episodes of "Food, Glorious Food" are available on the BBC website, you cannot watch them from this side of the pond. Youtube came to my rescue and while I was watching episodes of "Food, Glorious Food" I also discovered an episode or two of "Paul Hollywood's Bread", also from the BBC. (I'll put the link to one in the comments for you.) Paul Hollywood knows how to bake bread and he is very good at teaching too. Paul Hollywood's Bread contains the recipes from the show. It's been out in the UK for a bit, but only just made it to this side of the pond a few days ago. Paul Hollywood's mission is not to teach baking to people who will be professional bakers, but to ordinary folk who have perhaps never even thought of baking bread. That focus shows in Paul Hollywood's Bread.
