Customer Reviews

This is probably not what most people searching for a magic book are looking for, but it is a very good book of magical knowledge. The tricks are very dated - from the late 1800s to early 1900s and that will put most magic enthusiasts off. BIG MISTAKE - for the low price of \$2.00, you get a treasure trove of magical knowledge. You can learn so many magical principals that will serve any magician quite well and there are several really good effects that are still performed today. You will need to update many of the effects and a lot of the props in the books are not to be found today unless you go to a magic auction and invest in magic of the past. I like this book ALOT - especially for the low cost and the amount of magic revealed.

this book is the worst book ever it does not even givyou the info your looking for i personaly dont recomend this book:(

Great, and useful.
