Some Theory Of Sampling

Synopsis

Analysis of the problems, theory, and design of sampling techniques for social scientists, industrial managers, and others who find statistics increasingly important in their work. Only college algebra assumed. Illustrated with dozens of actual large-scale surveys in government and industry. "The 'bible' of sampling statisticians." — American Statistical Association Journal. 1950 edition.

Customer Reviews

Great book, useful for business, management, and administration students and professionals. Deming's work is frequently used as the basis of theory and practice.

Good stuff, if you are into this type of thing.
