We are trying to study Beginner German together, my 8yo and I. We have tried Rosetta Stone and found it arduous to follow. My son enjoys picking up this workbook and working through the writing exercises...usually completing 3 pages a day. He then uses the Usborne German for Beginners (internet-linked) book to find suitable links to online games or quizzes. We also use Live Mocha and a text-to-speech web application to listen to the pronunciation of words. For our current purpose, this book is very helpful. We plan to move on to The 100+ Series German, Middle School / High School by the same publisher once we've finished this workbook.

I teach elementary school German and find this book extremely helpful. It has pictures to color, many activities, and easy to follow. I would recommend this book to anyone who wants to teach German to younger kids.

I bought this book as a means of guiding my home school lessons for my three young children. It has been very helpful and the kids look forward to their German lessons.
