Age Range: 8 - 12 years

Grade Level: 3 - 7

## Customer Reviews

Got this for my kids 8-year birthday. He normally loves to read Archie comic books, so this was a nice change of pace. He says it's very special because it covers everything "from the big bang to 2016". There's plenty to pique his interest, including sports, TV, US states, presidents, science, nature, history, etc. I think because it mixes pop-culture and sports along with everything else, it doesn't seem like a chore to read it and learn a wide range of facts. Well worth the money and a great gift!

I received a copy of this free for an honest review. Time for Kids Almanac 2017 is a great resource of facts and fun for kids ages 8+. If you've got a child who is curious about the world or one who is a big entertainment fan, they are going to love this book! It has so many awesome tidbits that your kids will soak up! With the holidays quickly approaching, this would make a great gift for a child in your life. In this fast paced life, even adults will appreciate this since it gives you the facts in a short, concise manner. This is definitely something you'll want to read and share with your kids!

This book is quite speculator! Within this amazing book there are hundreds photos of some of the coolest things to grab our attention for 2017. In addition to all the fabulous photos, there are facts and tidbits galore. While you peruse the book you can look through the chapters and read things that interest you the most. The chapters are: A Look Back, Animals, Art, Body and Health, Books, Calendars and Holidays, Computers and Games, Countries, Energy and Environment, Entertainment, Geography, History, Inventions and Technology, Science, Space, Sports and The United States. When this book arrived my son was instantly reading it bouncing from topic to topic...all I heard was "Did you know that...." followed by some amazing factoids and "Wow, look at this..." followed by me looking at some crazy cool things. These are the type of books that capture the attention of young readers because they have amazing vibrant photos with fun facts, game, puzzles and digital extras. I love that I can trust that my child will be learning interesting and important facts and that their attention will be captured over the summer with this book. Every time you open it up you read you learn something new. This will be a staple read for my boys over the summer! 5 stars! I received this book free for my honest review.

I BOUGHT THIS AS A GIFT. LOOKS VERY INTERESTING.
