Clicker Training For Clever Cats: Learning Can Be Fun!

Synopsis

There is a method of learning to which no mammal is impervious—not even cats. It is called "classical conditioning," and is used in a very specific way as part of clicker training. Every click results in something positive for the cat: a treat, a cuddle, a favorite game. Because cats are intelligent, they quickly understand what kind of behavior gets them a click and a reward, and they will experiment in order to find out what else might work. This manual explains what classical conditioning involves, whyÂ it works with every cat, how to avoidÂ mistakes, and how to use rewards properly and develop chains and sequences of behavior, as well as small tricks.

Average Customer Review: 4.9 out of 5 starsÂ Â See all reviewsÂ (7 customer reviews)

Best Sellers Rank: #230,912 in Books (See Top 100 in Books) #21 inÂ Books > Crafts, Hobbies & Home > Pets & Animal Care > Cats > Training

Customer Reviews

I was somewhat dubious that my seventeen year old cats could learn anything, but I was wrong. Clicker training is simple for both you and the cat. The first command is the hardest (sit in our case), but they learn faster with later commands and tricks. Give it a try, both you and your cat will have a good time and you will be so proud of your cat for showing you how smart it is.

I was determined to have a better behaved cat, so I bought this book & a pack of clickers. My husband thought I was nuts. NOW he thinks I'm a genius! Our cat has already learned several commands very quickly by following the steps in the book. He sits for his food every time we feed him. He will sit on demand & now he jumps on demand into our arms! I started training him the beginning of April, so I would say in less than 6weeks he learned these skills. We are now starting to teach him to COME when called & next will be tricks! I am just amazed that you can train a cat to do ANYTHING, but it really is easy...it's all conditioning w/food rewards. One way I found I REALLY

got my cat's attention was instead of treats I cut up little pieces of white meat chicken & WOW that really IS a treat to him, so he paid attention!

I have been training my cat and she is already coming on command, will sit up for me and I just about have her rolling over. She enjoys the attention and I am having fun too.

great book, I love it. came on time and packaged correct, I would definitely make this purchase again

Good and practical read. It really works!!! Many thanks to the author!!

Great book!

great
