Customer Reviews

As a leftie, I've always had to do my own conversions scrawled on scraps, so this is the best chord book I've ever seen or had. So many instruments in one beautifully laid out book. Great value for money (under \$4 per instrument). An essential tool for any musician. Suitable for beginners and experienced musicians alike. The blank sheets are a great addition to the perfect workbook. Not a cost, an investment! All you talented right handers- Don't forget the Right Hand Chords for Guitar Mandolin Ukulele & Banjo - money well spent!

Bought to learn how to play ukulele left handed. Out of 60 pages two address the ukulele and that's nothing but drawings of cords. May be fine for the other instruments but useless for ukulele,

A very complete set of chords for each instrument. Lots to think about for sure! Well organized and well presented

Chord book met expectations. Would have given a 5 star but shipping was very slow.
