Hard to go wrong with any Crichton story, and this has two of the three I really have enjoyed on cassette for many years over and over. His writing is one of the few writers I've come across that I never get tired listening to each book over and over.

Let me just say, I had to buy 2 of these because my parents are divorced but still enjoy the same things. My dad works on a lot of heavy machinery and my mom travels a lot via car. This is a wonderful gift to give someone who spends a lot of time in a vehicle of any sort. The stories are engaging and well performed. My parents love the gift. It took extra time to deliver to my dad

because he lives in the middle of nowhere. My mom received her gift on time because she lives near a major city.

I love Michael Crichton books and bought this to listen to while on a road trip. Didn't end up listening to it then but just finished it up and I was pleased with it. I'd never listened to an audio book before so I didn't know what to expect. I found myself just as captured by the audio book as I was when reading these books previously.

An absolutly enjoyable read/listen. Great entertainment! Hard to put down because you want to keep going!
