Voices Of Wisdom: A Multicultural Philosophy Reader (Available Titles CengageNOW)

Synopsis

First published in 1992 this anthology quickly became the standard for multicultural introductions to philosophy. Composed of a group of culturally diverse readings addressing a selection of seminal philosophical questions in ethics, epistemology, and metaphysics, VOICES OF WISDOM introduces students to the traditional terrain of philosophy as developed in the European tradition, yet in a manner that embraces significant philosophical insights borne out of different cultural legacies.

Book Information

Customer Reviews

What a cool book! Used often as a required textbook for Philosophy 101 classes, this is a valuable reference for a lifetime. Most of the book is multi-page excerpts from some of the great thinkers in human history. Plato, Laozi, James, Martin Luther King, Engels, Nietzsche, Dalai Lama, Richard Dawkins, Kuhn, on and on. It's neatly organized into twelve chapters; within each there are about six excerpts from different books with an insightful introduction and reading questions. Chapters include Is There a god? Is Knowledge Possible? What Am I? and other non-trivial questions. Reading this comprehensive anthology gives a broad literate education without the months (years?) it would take to read through all the original texts, if you could somehow know what they'd be. A worthwhile reference and a jumping off point into some classic books of human thought.

I bought this for a community college philosophy course. I read the titles and selections prior to the

first class. I dropped the class based on the exclusion of content in this book. There are some worthwhile readings from Plato, Aristotle, and Thoreau. But, there's a lot of Communism, Socialism, Buddhism, Islam, and Hispanic racism (La Raza). If there were a similar entry promoting Caucasians, you could guaranty the book would be banned. I wouldn't have minded the inclusion of ideas I don't embrace had opposing viewpoints such as Free Market, Democratic Republic, and Judeo-Christian writings also been included. In my mind it's not a fair representation of the great philosophies from history. More modern and extremist views compared to historically tried and true writings.

Everything was well handle and I receive my packaged without any headaches soo Great services . I appreciate my packaged being handle with care and that it arrived on time and had no disappointments

My daughter is taking an introduction to philosophy class and she is enjoying it immensely! Said reading this text along with the instructor's lectures are a must.

Not what I had expected. Thought it would be a good side by side comparison of the different traditions, yet it was not..

Got the book for a class. It got the job done. It also happens to be genuinely interesting. It's the full package.

I ordered this for a class, and it's not too bad for a textbook. Overall I did enjoy reading it.

Recieved the teachers edition & was in great condition. Thanks
