John Hunt Morgan And His Raiders

Synopsis

Whether one thinks of him as dashing cavalier or shameless horse thief, it is impossible not to regard John Hunt Morgan as a fascinating figure of the Civil War. He collected his Raiders at first from the prominent families of Kentucky, though later the exploits of the group were to attract a less elite class of recruits. Morgan was able to lead these men into the most dangerous adventures by convincing them that the honor of the South was at stake; yet he did not always succeed in appealing to that sense of honor when temptations of easy theft drew the Raiders from military objectives to wanton pillage. In *John Hunt Morgan and his Raiders*, Edison H. Thomas gives us a balanced view of these controversial men and their raids. In a fast-paced narrative he follows the cavalry unit for the evening the first group set out from Lexington to join the Confederate forces until the morning of Morgan's death in Greeneville, Tennessee. Basil Duke, St. Leger Grenfell, Lightning Ellsworth, and the beautiful Martha Ready all receive their due, and the truly remarkable story of the Raiders' newspaper is told. A special contribution is the insight this account offers into the disruption of rail communications carried out with such enthusiasm by Morgan and his men. Thomas' study of the railroad records of the period has enabled him to present this part of the Raiders' story with rare detail and understanding.

Customer Reviews

Details details.. I wish this book had more of them. I was a bit disappointed in getting this hardcover to see that I could read it in a couple of days. The pages go by fast as they cover Morgan's daring raids throughout Kentucky and the north. I was hoping to get more information than the quick

coverage of the events that Morgan and his raiders went through. I would have liked to get some insight from his companions in the field and also from his enemy. This book seems to summarize Morgan and probably isn't the best when it comes to dates and details. It is important to suggest this book for anyone looking to read about a different Confederate cavalry commander instead of Mosby or Stuart that doesn't want to get into serious details. Perhaps this book exemplifies Morgan himself. It was short and fast. Morgan started his command quickly and finished quickly.

GREAT BOOK! HARD TO PUT DOWN! Covers the "Thunderbolt of the Confederacy" John Hunt Morgan from Tompkinsville, KY to Greeneville, TN. This little book has more in it than a 800 page novel. If you are interested in Morgan's Raids or Civil War activity in the Kentucky - Tennessee area, this is a MUST READ!

I've read lots of books on Gen. Morgan and I must say, this was a pleasure Indeed. The book came fast and clean too the house. a real treat

My great grand father rode for Capt. John Hunt Morgan. Bought the book to learn more.
