The ABCs Of Rock

Synopsis

From one of the top rock band poster artists in the country comes a collection of evocative images of 26 of rock music's most recognized icons. Starting with AC/DC's familiar lightning bolts and ending with ZZ Top's custom Ford coupe, this alphabetical retrospective of more than four decades of rock history will inspire music lovers of all ages.

Age Range: 3 and up

Grade Level: Kindergarten - 12

Customer Reviews

This is an 80s view of rock and roll. It was written by a Nashville artist who died when her children were very young. The publisher consented to its release with all proceeds going to an educational fund.

Love, love, love! What a cool way to teach the kids their ABCs! The illustrations by Print Mafia are awesome. (You can check out their poster work at printmafia.net--they are the masters.) We're keeping this book on the coffee table so the oldsters who come over can enjoy it too. A great concept by the late (and so great) Melissa Mooney.

I purchased this for a friends son (the parents are both huge into music, especially classic rock) and they just loved it! I looked through it myself before packing it up to send to them, and it is very colorful, and the letters are big! Very cute book that will have kids learning the ABC's, and keep

parents entertained when reading it!

Teach your kids about rock! Watch them learn their abc's! Dig the fantastic art! Listen as your friends ask, "Where did you get that book???"

Our nine month old son gave this to Daddy for Christmas this year. He loves it, although he did remark that The Smiths should have been the "S." All in all, it's a great book that Dad + son will enjoy for many, many readings.

If you knew the Author you wouldnt have said this, its her heart and who she was! Full of love!!! RIP sweet friend! You are worth a million copies to be sold and full of pure design!!! WONDERFUL WORK!!!![...]

I bought this book thinking it would have at least a small blurb (two or three sentences) about the bands or musicians that tie to the letter. Nothing. Very disappointed. This was a Christmas gift for an 8 year old boy, I ended up buying another book and keeping this for my 4 year old.

I love this book. The colors and graphics are amazing, and I love the choice of musicians included. I bought several as gifts for various musician friends and lovers of good music. I leave my copy out and friends always gravitate to it and flip through the pages.
